

Timeless Gloss

Product Description

Released in March 2010, Timeless is a proprietary print varnish that has been developed to protect, preserve and enhance fine art and photographic prints produced on digital inkjet printers. Timeless was developed to be a significant upgrade to the available print varnishes on the market today for the following reasons:

Ease of Use: There is no mixing required; the product is ready to use exactly as you receive it. It is very easy to hand-roll and spray using HVLP.

Extremely Fast Drying: This product dries extremely fast, making it one of the most admired features of early users.

Enhanced UV Protection: For added longevity.

Anti-fungals: An important feature for high humidity environments.

Incredible Gloss: Our gloss is extremely high and has already convinced glossy canvas users, who typically require an extremely high gloss, to switch to our Lyve Canvas and Timeless as their new and superior solution.

Finally, a True Matte: The industry has been waiting too long for this. It was very expensive to make, but we did it. Try this on fine art paper and display your prints without glass.

Timeless can be applied using a hand roller (see our RollerFoam Kit) or via HVLP spray.

Additional Information

Storage 72°F ± 5°F (22°C ± 3°C) / 35-65% Relative Humidity
Shelf Life 6 Months, under recommended storage conditions

Product must not be shipped or stored in freezing conditions.

Store product in original packaging when not in use. Keep container tightly sealed.

Note: Actual print stability will vary according to media, printed image, display conditions, light intensity and atmospheric conditions. Breathing Color does not guarantee the longevity of prints. For maximum print life display all prints under glass or lamination or properly store them. All of the descriptive information and recommendations for the use of Breathing Color products should be used only as a guide. Furnishing such information and recommendations shall in no event constitute a warranty of any kind by Breathing Color. All purchasers of Breathing Color products shall independently determine the suitability of the material for the purpose for which it is purchased. Seller's and manufacturer's only obligation shall be to replace such quantity of the product proved to be defective. Neither the seller nor manufacturer shall be liable either in tort or in contract for any loss of damage, direct, incidental or consequential (including loss of profits or revenue) arising out of the use of or the inability to use the product. No statement or recommendation not contained herein shall have any force or effect unless in agreement signed by officers of seller and manufacturer.

Physical Specifications

Active Concentration (By Weight)	36.75%
Viscosity (CPS)	150
Gloss (@60°):	
- Applied to Chromata White Canvas	16
- Applied to Lyve Canvas	22

Note: Gloss level of finished product will vary depending upon the surface texture of the media selected, application technique, and amount of coating applied.
